# Nippon Express Announces . . .

## **ARROW ATLANTIC**

### USA to Europe Consolidation Service

- **Reliability.** As subsidiaries of Nippon Express Co., Ltd., founded in 1872, we have the resources to service your needs world wide.

- **Efficiency.** Our regular schedule of service on trans-Atlantic shipments offers you the stability your supply chain needs.

- **Accessibility.** We have a global multimodal information system unique to the industry.

- **Security.** Operating our own facilities in the USA and in Europe, combined with a philosophy of providing all related services in logistics management, your cargo is always safely in our hands.

Arrow Atlantic is your direct link between Nippon Express in the USA and in Europe. With this new service, Nippon Express can collect, consolidate and move your goods from anywhere in the USA to anywhere Europe.

With Arrow Atlantic you have access to the Nippon Express Group, which provides the full range of value added services, that you have come to expect from the global leader in logistics services.

**NIPPON EXPRESS**

# Arrow Atlantic allows you to combine the advantages of Nippon Express USA and the Nippon Express European Network

## RESOURCES IN THE USA

Nippon Express USA, founded in 1962, has a staff of 1600 professionals, operating at over 60 locations, across the country. With over 30 years of experience in the USA, we have established ourselves as a global leader in freight forwarding.

Nippon Express USA has experience in handling various types of cargo. From components to finished products, our warehousing and container freight stations — comprising 3.6 million sq. ft. — offer you an unmatched level of service and security. Because we exclusively operate all of our facilities, your cargo is always handled by our people, whether full or less than container loads.

## RESOURCES IN EUROPE

The Nippon Express European Network, founded in Hamburg, Germany in 1963, has grown into an organization with a staff of 1400 professionals in 13 countries, operating 55 key cargo consolidation and distribution centers.

We offer a wide range of services including: kitting; assembly; testing; inspection; and modification. With our modern warehousing — totaling over 175,000m<sup>2</sup> — we offer storage (bonded or not), re-palletizing, and efficient distribution planning. Operating our own trucking network in Europe, we can guarantee that your cargo, is continually in our reliable hands until reaching the final place of delivery.

## VALUE ADDED SERVICES IN THE USA

Nippon Express USA has built a strong reputation for comprehensive service and reliability. Our cost efficient door-to-door NVOCC service uses the most efficient routings and precise scheduling, to provide you with the optimum transportation package. We provide computerized documentation, insurance, and customs clearance expertise, as well as warehousing and distribution.

Nippon Express USA offers leading edge information access. Using our fully integrated, global information network and the Internet, Nippon Express provides real time shipment status tracking, shipping data, and destination status. Customers can use our EDI system to facilitate classification and summarization of invoice data into import customs entries, reducing clearance delays.

## VALUE ADDED SERVICES IN EUROPE

A global leader in NVOCC and multimodal freight forwarding, we also offer full container load and consolidation services. Our service package includes handling customs clearance, documentation, and insurance. All of your shipments will benefit from our expertise and extensive experience in this area. We have the knowledge and understanding to handle any obstacles, to ensure that your freight never stops moving.

Nippon Express can streamline a vast array of supply chain services with our warehousing and distribution services. Combined with our information systems, distinctive inventory management, and EDI capabilities — Nippon Express simply offers more.
